March 9, 2023

Today, the Buckingham Township Police Department and the Bucks County District Attorney's Office informed us that a Council Rock North staff member has been arrested for allegedly committing criminal offenses involving a minor. At present, it is our understanding that the minor was not a student in the Council Rock School District.

The staff member has been placed on administrative leave. We will be investigating the conduct of this employee. This is an active law enforcement investigation, and at this time, we have no additional information.

All Council Rock employees have all clearances required by law that are closely monitored for compliance by our Human Resources department.

Our top priority remains the safety and welfare of our students and staff, especially during this challenging time. Any person who has relevant information to this investigation should contact their local law enforcement agency. The Bucks County District Attorney's office is handling this case and any questions should be directed to their office.

We recognize that this is very concerning to all and understand that our students may react differently. There will be additional counselors present at Council Rock North on Friday, March 10 to assist students and/or staff who may require support. If you are concerned about how your child is coping with this information please contact his or her school counselor.

Respectfully

Dr. Andrew J. Sanko
Superintendent of Schools
