

Hello First Grade Families!

The first-grade teachers would like to share “How To” access resources for Distance Learning.

The lessons in **blue** are lessons that we suggest our first graders engage in. The lessons in **pink** are choice activities that students may choose in addition to the blue activities.

Lesson Plan important points:

Includes five days of fun activities

Reading, Writing, Math, Social Studies, and Science

Complete these lessons during the time that works best for your family.

No need to log on at a specific time!

Posted in Google Classroom the First-Grade teachers’ website. Follow this link: <https://www.crsd.org/Page/58535>

Available each Sunday at 5:00 PM

If possible, consider printing the lesson plan for easy reference.

Use the check boxes next to each activity to keep track of activities.

Now that you know **what** activities to do and **where** to find them, you may ask, “**How** will my teacher know that my child has completed his or her activities?”

We have created Google Distance Learning slide for each day for students to respond.

Google Slides important points:

Google slides file for each day of learning for typing responses

In Google classroom at 5:00 PM the day before the lesson

Work is automatically saved

Check your child’s work before submitting

Click the **blue Turn In** button

Children may also write assignments on paper.

Write your child’s name, the date, and subject on the top of the page

Take a picture and upload to Google slides

Take a picture and email assignments to your child’s teacher

We are excited to share our first week’s Distance Learning plan with you!

Mrs. Moore, Mrs. Longstreet, and Mrs. Whittle
