For items to cite that are not covered here, see the Council Rock High School Works Cited guidelines available at: www.crsd.org Information. Library Media Information. Resources for Students.

TIPS: The Works-cited section begins on a new page (or can be placed at the end of a media project).

Entries: All entries are double spaced, as is the entire works-cited section. The first line of each entry begins flush with left margin. Subsequent lines of an entry are indented ½ inch from left margin. (Use the default hanging indent feature of any word processing program (.5 indent) to achieve the correctly indented spacing.) Title page and the reverse of the title page are helpful in gathering information for book entries. Printed periodicals may have information in Table of Contents as well as on pages of article, but website information can be scattered throughout website. Entries in the works-cited list are arranged alphabetically by the first letter of the author's (or in some cases editor's) last name or, in the absence of a specified author, by the first word of the title, not including the articles "a," "an," and "the."

Authors: The name of first author listed in entry should be last name, first name with a comma separating the two. Additional names are listed with first name then last name (e.g., Smith, Mary C., John Jones and Mark Anthony).
