Social Studies
Chapter 1 Study Guide

Test Format:

• 1-9 match the vocabulary word with the correct definition
• 10-15 multiple choice
• 16-20 matching
• 21-23 fill in the blank
• 24/25 Essay
• Map of the bordering states (you do not need to know how to spell the states)

What you can do to study:

• Review vocabulary flashcards
• Complete the Chapter 1 Review page in the book.
• Complete the questions at the end of each lesson.
• Look over your yellow Study Guides for each of the three lessons that we covered. Make new flashcards by pulling questions from your Study Guide.
• Have a friend or parent read the Study Guide to you, and see if you can fill in the blanks.
• Complete the blank practice maps that you were given in class.
• Reread parts of the chapter that didn’t make sense to you.
• Make up a practice test.
• Record questions on a tape recorder and play back the tape to see if you can answer the them.
Practice for SS Map

* Fill in bordering states
* Look on back

List 5 different landforms found in PA

  2.
  3.
* Minerals
  1.
  2.
Pennsylvania

What do you know about a place called Pennsylvania?

Chapter 1 - Lessons 1-3

Short Answer

Answer the questions on the lines provided. You do not need to answer the questions in complete sentences. Try your best with spelling.

1. What kind of land and water does Pennsylvania have?

2. What states border Pennsylvania?

3. Why do different parts of our state have different climates?

4. In what ways are natural resources important to Pennsylvanians?
5. What would you like to know about Pennsylvania?

True/False
Write the word True if you think the statement is true. Write the word False if you think the statement is false.

6. ____________ Different parts of our state have different climates.

7. ____________ Different parts of our state have different kinds of landforms.

8. ____________ Tornadoes and hurricanes do not affect Pennsylvania.

9. ____________ Forests and water are examples of nonrenewable resources found in Pennsylvania.

10. ____________ Once nonrenewable resources are used up, they are gone forever.

11. ____________ The most important resource found in Pennsylvania is soil.
