Optional Step Six: Click these buttons on the page to have the text read aloud to you.

The screenshot shows a digital textbook page for the lesson "Settling the South". At the top left, there is a speaker icon with a black arrow pointing to it from the "Optional Step Six" instruction. At the top right, there is a "Reading Help" button with a star icon. The page features a timeline from 1600 to 1750 with key events: 1632 (Lord Baltimore receives a charter for the Maryland Colony), 1712 (The Carolina Colony is split into North Carolina and South Carolina), and 1733 (James Oglethorpe founds the Georgia Colony). On the left side, there are sections for "WHAT TO KNOW" (How did geography affect where people settled in the Southern Colonies?), "VOCABULARY" (constitution, debtor, backcountry), and "PEOPLE" (George Calvert). At the bottom right, there is a "YOU ARE THERE" icon and a text box starting with "The year is 1650. You are standing on a hillside looking down at the bay below. Two months ago, you got on a ship in England to come to the Maryland". A black arrow points from the "Optional Step Six" instruction to a speaker icon at the bottom of the page.
