1. My grandmother and grandfather live together in South America.
2. The tooth fairy left three dollars underneath my pillow.
3. There are thirty students in my third grade class.
4. They thought that their mother would be there by three-thirty to pick them up.

Matthew had a smoothie for breakfast on Thursday. He thinks that strawberry banana smoothies are the best! He always has to brush his teeth afterwards though because the seeds get stuck in his teeth. First he uses mouthwash, then he flosses between each tooth. After that, he puts toothpaste on his toothbrush and scrubs for three minutes. Matthew is proud that he eats healthy and also takes good care of his teeth.
