General Notes:

1. Uses approved for non-community organizations or for-profit groups will be scheduled only when the USE does not conflict with a district or community USE.
2. When admission fees are charged as a part of this USE, the district may choose to collect the greater of the fees listed above or ten percent (10%) of the revenues generated from admission in lieu of all other use charges for that USE. Payment for service fees, as presented above, would still be charged to the USER.

Summer Camp Use

Council Rock School District provides our facilities to USERS for summer camps – including township summer camps and a variety of athletic camps. The USE designation defined under FACILITY USE FEES above does not apply to a USE that is part of a summer camp program. Instead, the district assesses the summer camp charges listed under SCHEDULE OF SERVICE FEES noted above.

\$25/camp participant. This fee is required on or before the first day of camp along with a complete roster of participants.

Full Facility Use

Organizations, such as Parent-Teacher Organizations, use our facilities occasionally for school fairs that bring together students and community. When a USER seeks to use an entire facility for this purpose, the district will work with the USER for a reduced fee for that single use. All other service fees will apply without reduction.

Other

USES that occur during a weekday when school is in session will, in most cases, be granted without service fees for custodial time. **Overtime charges may apply to this schedule of fees when the USER involves service fees after 3:00pm on Saturday, and any time on Sunday and school holidays.**
