Library Resource Material Student Exemption Procedure

The following procedure will be used for parents/guardians who wish to exempt or limit the material that their child has access to from the classroom and/or school library database.

At the beginning of each school year, students will receive a handbook that will be reviewed by the student and their family. As addressed in the handbook, students will have access to classroom libraries and school libraries throughout the year. The school staff would like parents/guardians to participate in their child's reading choices by perusing all self-selected titles. If at any time the parent/guardian feels that the content and/or language is inappropriate for their child, they will let the classroom teacher and the library teacher know, and they will gladly assist the student in selecting another book from the classroom library. Parents/guardians should feel free to make reading suggestions to their child for self-selected reading. **If there are titles that parents/guardians do not want their child to sign out from the classroom library and/or the school library, they will notify both their child's classroom teacher and school library teacher.** Notation of the title(s) to be excluded will be entered into their child's Destiny account. Parents/guardians will sign-off in the student handbook acknowledging that they have read the procedures regarding book sign-out.
